Dimension

Width dimension 1: cm
Width dimension 2: cm

These dimensions are only required with centre rafter fascia!

Dimension A / inside dimension: cm
Dimension B / inside dimension: cm

Measure the width of the inner edge of the groove!
We recommend measuring 2 mm less in the width.

If you are using a Velux rafter please tick, the center rafter fascia is then omitted!

Velux rafter EKY / 15,5 cm x 7,9 cm:

Individual rafter,
Please enter dimensions:

Attention, our inner linings have a material thickness of 19 mm, produce insulation with sufficient clearance for the inner lining!--
